To: Charles Auer (EPA), Diane Sheridan (EPA), and EPA Staff:

I am writing on behalf of the Specialty Acrylates & Methacrylates (SAM) Panel of the American Chemistry Council (ACC).

Thank you for EPA's letter dated September 29, 2006 to Anne LeHuray of ACC regarding the status of 2-propenoic acid, isodecyl ester (isodecyl acrylate, CAS # 1330-61-6) under the HPV Challenge Program. Attached please find for isodecyl acrylate: (1) a final test status and data review, and (2) a final IUCLID data set.

With this submission, the SAM Panel believes it has satisfied its commitment for isodecyl acrylate (CAS# 1330-61-6) under the EPA HPV Chemical Challenge Program.

If you have any questions regarding this final submission, please contact me by telephone at (703) 741-5633, or by email at jon_busch@americanchemistry.com.

I have recently replaced Anne LeHuray at ACC as the manager responsible for this particular chemical.

Sincerely,

Jon Busch
Manager, Specialty Acrylates & Methacrylates (SAM) Panel
Director, CHEMSTAR Panels
